SHAASTRA 2018 SUPER - COORDINATOR APPLICATION ENVISAGE

INSTRUCTIONS:

- The entire application **should not exceed 5 pages**.
- The number of ideas does not matter if not validated properly. Each idea should be thoroughly thought through before being included in the application
- The application will be your bible for the next year. Ensure that it is a “plug and play” application
- Deadline for submission: **11.55 pm, 16.04.2017**
- Timelines should be included in Google calendar (preferably) or in a separate document
- Please meet current cores and previous year (Shaastra 2017) team

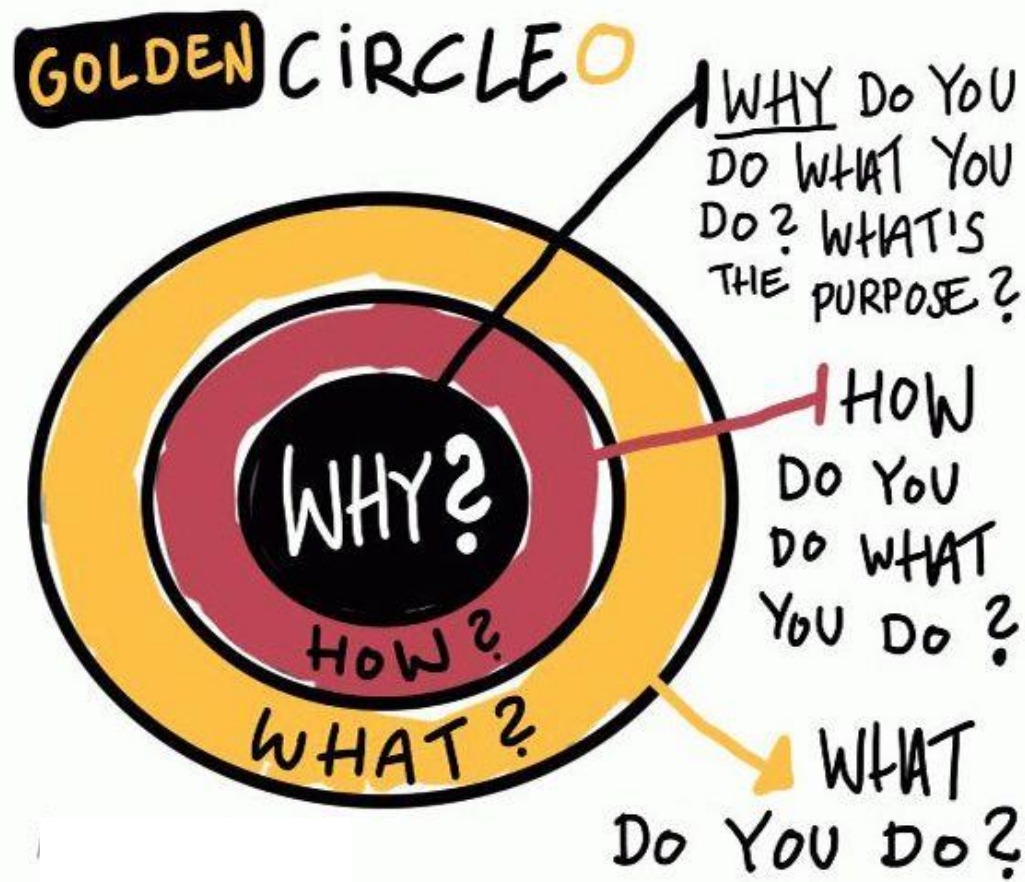

Deepanath C	9445460229
Abhishek Kelkar	98197 98775

Previous Year Cores

Harshit Dohare	9962879064
Omkar Vanjpe	7708173059

- Skillset requested from applicants – None! Just enthu is enough
- **All Questions are mandatory**
- Your very own Shaastra journey has begun. Please make sure you have fun along the way. All the best.

The key to any successful undertaking is to understand the Golden circle. Please answer all questions below, after giving this a thought.

1. Do a **SWOT** analysis critically examining the performance of last year's Envisage team. Suggest improvements. These can include new **initiatives** and solutions for the last year's drawbacks. Do a brief Risk and Mitigation plan for Envisage 6.0 Show (Note: *Focus individually on the Envisage projects as well as the inter-departmental interaction*)
2. It is clear that Envisage is reaching saturation given the repetition of projects and the technology being used. What measures do you plan to take to tackle this problem and give a **fresh look** to Envisage?
Active participation from super coordinators in deciding the projects is crucial. What are your **new proposals** (at least 2) for the projects to be shown in Envisage 6.0? (*Keep in mind the feasibility, scalability, cost and security issues of the projects, for example projects such as those which have naked fire, naked electricity aren't allowed in SAC*)
3. Keeping your proposed projects in mind, How big or small a team do you need? Do you have quantifiable work for all members? (Include everyone – every single one, Mention the *technical skills expected*)
Summers are inefficient. Or are they? Tell us why. Or why not? And what will you do about it? Tell us your plan of action for the summer.
Add your **timeline** for your proposed projects in a google calendar or a separate doc.
4. What were the advantages, disadvantages of Tech Ambience? Do you think we were not serious enough about it? Detail a plan of action for Tech Ambience in the upcoming year. Describe a minimum of 5 Tech Ambience project ideas (execution details are encouraged)
5. Why do you think club was established? Where do you draw the line between club projects and Envisage/ Tech Ambience projects? What are contributions from your end towards the club? Ideate on club sessions and attracting freshie crowd for the club.
6. Branding and online presence of Envisage is significantly less. How do you think we can improve this? Detail what TechCreation is for Envisage department? Provide ideas for improving online and offline presence. (*TechCreation is part of Shows and Exhibitions Team*)
7. What is your previous experience. What is your expertise in Tech? Why do you think you are ideal for this position? Why should we **NOT** select you?
